Report of the Superintendent

To the School Board of Canaan:

I submit herewith my report as Superintendent of Schools.

The schools opened September 7, 1937, with one change in the teaching force: Mr. John W. Day, a graduate of Plymouth Normal School, class of 1937, was appointed to fill the vacancy caused by the withdrawal of Miss Chase, who resigned to be married.

Three hundred and five pupils were registered in all the schools in town. Of these ninety-seven were in the high school. Transportation of all high school pupils living two miles or more from the school building is undoubtedly a factor in keeping up the enrollment. The per cent of attendance from the opening of school to the writing of this report has been very good, 95.2.

During the summer one of our teachers attending summer school, Miss Burke of the West Canaan School, attended the University of New Hampshire and brought back to her pupils the experience gained from six weeks study and contact with others in the field of teaching. The value of this experience cannot be over emphasized.

May I again call your attention to some of the necessary repairing that needs to be done to keep the buildings in good condition. The High School building needs painting badly. There will not be enough in the amount usually raised for minor repairs and expenses to do this extra work and for this reason an appropria-

tion should be made to cover this one item. If the general policy of painting a building each year could be adopted the buildings would present an attractive appearance to the passerby.

The toilets in the building at the Village which houses grades one and two is giving some concern. It might be well to make a study of this, and then install something that would be more sanitary than the one now in use.

School houses are now being equipped more and more with screens. This is a very fine thing to do. For a considerable period of time in the Fall of the year flies are a nuisance and a pest. I hope that some time each school house can be furnished with a screen door, and two or three windows in each room covered with a full length screen. With proper care these can be made to give many years of service.

I cannot speak too highly of the work the teachers are doing. They realize their responsibility and are ever on the job. Their task is a big one and they are rendering a real service. Miss Moynihan is busy and she is alert to the physical needs of the pupils.

The District is to be congratulated upon your zeal in keeping the schools up to date. Your cooperation is a great help to me and I thank you all for it.

EARL P. FREESE,
Superintendent of Schools.
